

## Beacon Innovation Centre

---

Opened in May 2002, Beacon Innovation Centre has a range of offices, studios and workshops with shared reception, conference and advisory facilities coupled with a high level specification for ICT systems. Utilising technology transfer, design and innovation skills, access to finance and high-level networking, the Centre assists in SME and job creation in high value, high growth areas. In particular it will act as the focal point for the regionally important offshore, geophysics and related electronics cluster. Key links have been established with major UK corporate and university research centres, strengthening the Centre's capacity to attract high tech business and encourage further inward investment to the Great Yarmouth/Lowestoft area.

*Total Project Cost: £3,674,669*

*ERDF monies: £964,502*

*Priority 2 'Developing Key Locations'*
