Performance against 20/20 Targets and Objectives/Sustainable Community Strategy Update

Background

At the LSP Board meeting on 2 April, in the course of discussing the need and obligation to prepare a Sustainable Community Strategy (SCS) for Great Yarmouth, the Board asked for a summary of how we have done against our most recent community strategy.

This review has been started by David Stannard and, it is proposed, will form a baseline or position statement for our new SCS. As concluded and agreed at the 13 March meeting of Norfolk LSPs, our SCS will take the form of a revised, refreshed and supplemented 20/20 Vision rather than a completely new strategy.

Performance against 20/20 Targets and Objectives

A draft summary of achievements against the latest 20/20 is appended to this paper.

Sustainable Community Strategy Preparation

The following are the specified outputs and content of the project to prepare our SCS:

- Analysis of the achievements versus targets and milestones in "2020 Vision – the Revised Path to the Future" to report to the June 2007 LSP Board.
- Revise, update and add to "2020 Vision the Revised Path to the Future" so that it becomes the sustainable community strategy (SCS) for Great Yarmouth.
- Spatial planning and development issues will be incorporated into the SCS.
- Final draft to be available by December 2007.
- The LSP Executive and Board will be regularly informed of the progress of the strategy.
- To consult with Local Strategic Partnership partners, including Great Yarmouth People and community partnerships to get their input and comments on SCS drafts.

- The strategy will comply with the White Paper "Strong and Prosperous Communities" and the guidance arising out of the 2005 LSP consultation/evaluation.
- The strategy will be consistent with Norfolk Ambition, the county community strategy.
- The strategy will be consistent with the content and approach agreed at a meeting of Norfolk local authorities in March and the resultant "shared approach for Norfolk".
- The SCS will be consistent with regional strategies.
- The strategy will take into account Great Yarmouth/Waveney sub-regional issues and will be consistent with the Waveney Sustainable Communities Strategy.

Will the Executive:

1. Note the specification and timetable for the preparation of **Great Yarmouth's Sustainable Community Strategy**.
2. Note the draft appendix on progress against the targets and objectives in the revised 20/20 Vision.

TEL 4 June 2007

APPENDIX -ACHIEVEMENTS OF THE REVISED 2020 VISION

2a-High Level Targets

<i>Revised Vision</i>	<i>Achieved?</i>			<i>Status</i>	<i>Evidence</i>
