Note :-

- 1) It is Office for National Statistics (ONS) policy to publish population estimates rounded to at least the nearest hundred persons. Estimates are sometimes provided in units to facilitate further calculation. They cannot be guaranteed to be as exact as the level of detail implied by unit figures.
- 2) The accuracy of the two eldest age groups 85 to 89, 90+ will be affected mainly by the accuracy of age reporting at death. If there are small numbers in the 90+ age groups by sex then only the totals for these two age groups have been supplied.
