To Whom It May Concern:

I have been in discussion with Albert Jones for some time in connection with running land trains to his proposed development 'The Edge'.

I see this as a great opportunity for me to increase my route and offer my customers the chance to see the Pleasure Beach in action and then continue to the new development. With the proposed multi-storey car park at the southern end of the site I believe this is an opportunity for me to run a 'park and ride' to the northern end of the seafront. With this in mind I have purchased another train which has enclosed carriages suitable for winter use and during bad weather.

I see this as a very exciting scheme which will be a major boost not only to myself but to all seafront traders. With the range of leisure uses on offer this will extend my season to 52 weeks a year and allow me to employ permanent staff rather than on a seasonal basis.

I support the scheme wholeheartedly and hope that it obtains the necessary permits to go ahead.

Please feel free to contact me if you have any questions.

Yours sincerely

Debbie Lord

yours *J. Lord*
